

The Atari 8-Bit Omnibus

Update List: 5 August 1995

Page 2: Fine Tooned Engineering

The *Sweet 16* board has been released. This replaces the 6502 CPU of your XL/XE with a 65816, the same CPU used in the Apple IIgs. It includes a 65816 assembler. \$69.95

The *MIO II* has been delayed to finish the software. A parallel printer port has been added. Previous orders will be honoured, but new orders will cost \$119.95.

The *Mars 8* will provide up to 4 megs of RAM for use with the *Sweet 16*. It will also permit languages such as Basic XL/XE, Action! or Mac/65 to be built-in to an 800xl, as well as an R-Time 8 clock and SpartaDos X. Pricing TBA.

Page 2: Mytek

The Mytek colour genlock is available. See the attached flyer for information on their Studio II.

Page 3: SIO2PC / Nick Kennedy

The address should be:
Nick Kennedy
300 South Vancouver Avenue
Russellville, AR 72801

Page 23: B&C Computervisions

B&C have moved. Their phone numbers remain the same, but their new mailing address is:
B&C Computervisions
1725 De La Cruz #7
Santa Clara, CA 95050-3011
